# AN INTRODUCTION TO MyNest

At the heart of our company is a passion for quality and service. Since our inception, we have grown into a significant player in the UK's retail and contract bedding markets, with a growing presence overseas.

Our contract collection has been carefully developed to suit a wide range of market needs. Whether you're furnishing a hotel, guesthouse, holiday village, student accommodation, hospital, nursing home, or rental property, we have products tailored to meet your requirements.

We've placed strong emphasis on craftsmanship and product quality. Our experienced team of mattress and divan technicians, each with over 20 years' experience in UK bed manufacturing combine traditional skills with modern manufacturing techniques to ensure exceptional results.

Our range includes multiple divan options for every model:

•Reinforced platform top divans •Drawer divan bases •Deep Firm edge divans (with or without storage) •Firm edge divans on legs •Platform divans on legs •Guest beds

We also offer a **zip & link** facility on most models, enabling two single divans to be joined into a 180cm (6'0") super king size bed.

All our mattresses and divans conform to the **Medium Hazard rating of BS7177:2008, Source 5**, ensuring safety and compliance.

We take pride in going the extra mile. If you require something not shown in this brochure, please get in touch—bespoke sizes and special builds are part of our service.

Despite everything being made to order, we offer

some of the fastest lead times in the UK, combining flexibility with speed.

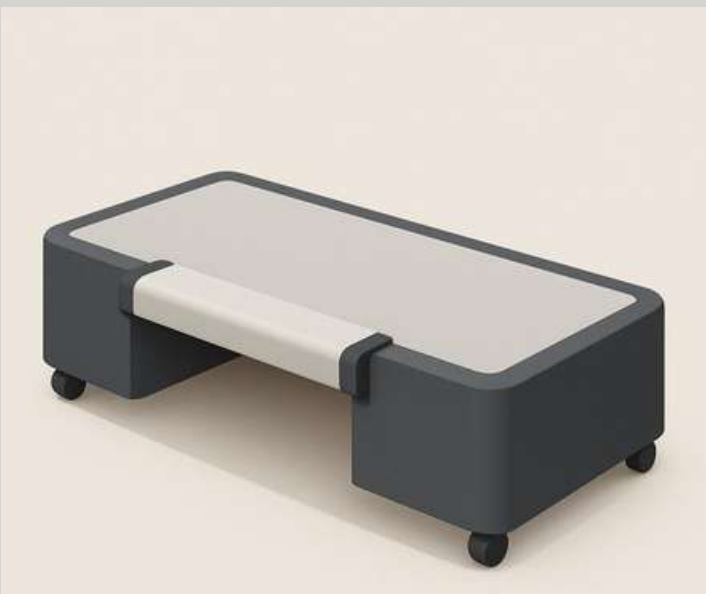

## **Installation Service**

For larger projects, we provide a full delivery and installation service. Our CSCS-qualified team will assemble the beds on-site and remove all packaging for recycling.

## **Disposal Service**

We also offer a disposal service for old mattresses and divans on large-scale projects. Please contact us for a quote—pricing is volume-dependent due to minimum charges at recycling facilities.

# SLUMBER 5000

A masterpiece of pocket sprung comfort with layered luxury

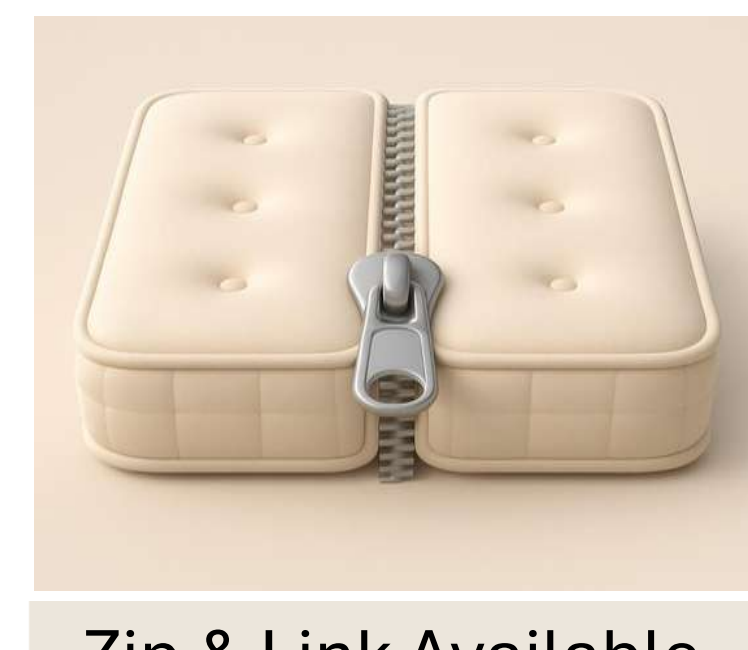

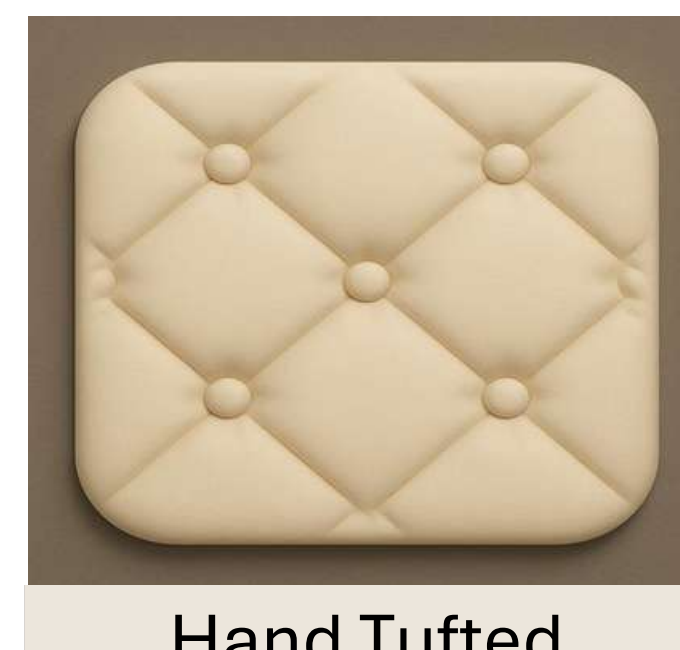

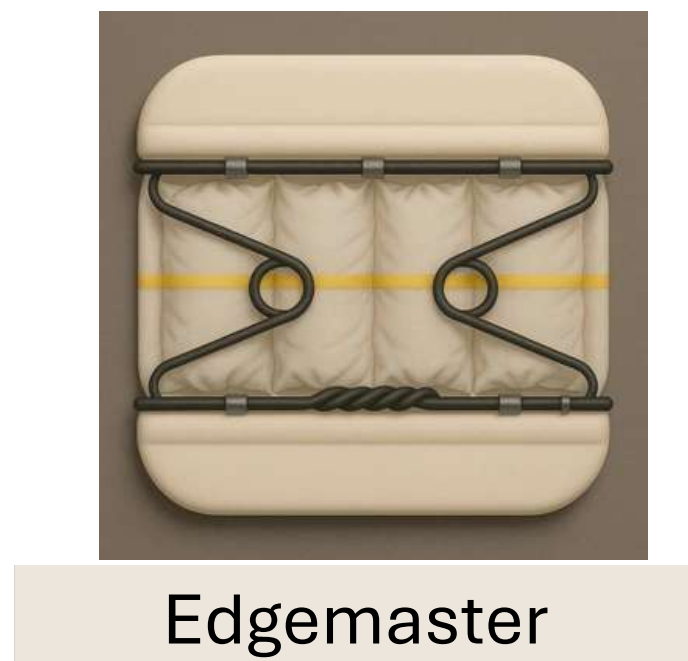

# Engineered Comfort and Longevity for the Hospitality Sector

The Slumber 5000 mattress has been developed to deliver exceptional comfort and durability at a commercially viable price point—ideal for discerning hoteliers seeking both performance and value. At its core is a precision-engineered pocket spring unit designed to provide targeted, independent support across the entire sleep surface. This is reinforced with our proprietary Edgemaster perimeter support system, incorporating high-tensile steel wires along both the sides and ends to ensure structural integrity and edge-to-edge stability. Multiple layers of premium-grade upholstery fillings are applied to enhance pressure distribution and sleeping comfort. The outer cover is constructed from a high-specification 100% viscose fabric, offering a soft hand-feel with enhanced moisture management and breathability. The mattress is hand tufted, a traditional and time-proven technique that ensures long-term shape retention and

minimises material migration. Side panels are side-stitched and equipped with flag-stitched handles for ease of rotation and manoeuvrability. Integrated air vents facilitate airflow through the mattress core, supporting a fresh and hygienic sleep environment.

Each mattress is fitted with turning labels to guide the user through the recommended rotation and turning schedule critical for maintaining uniform wear and maximising mattress lifespan in high-usage hospitality settings.

MyNest

## DRIFT 1400

Crafted exclusively for boutique and luxury hotels, seeking the ultimate  
in restful indulgence.

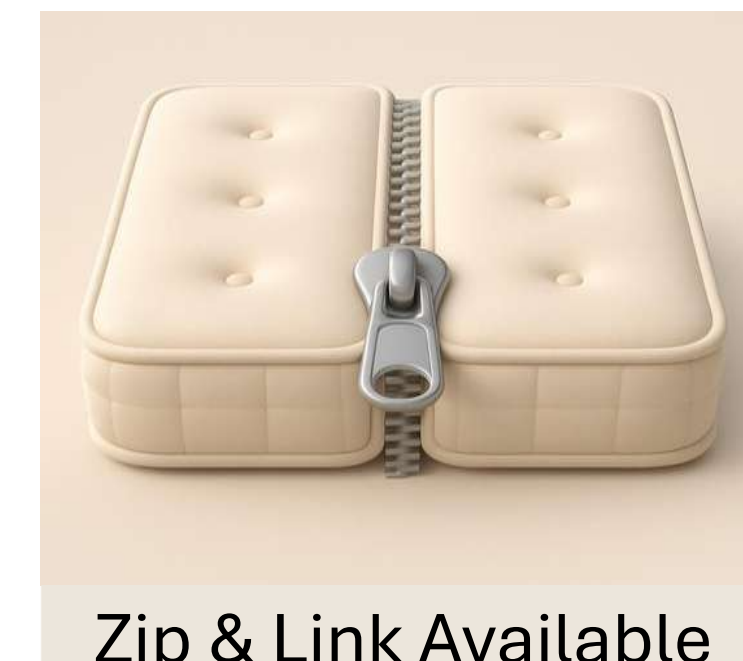

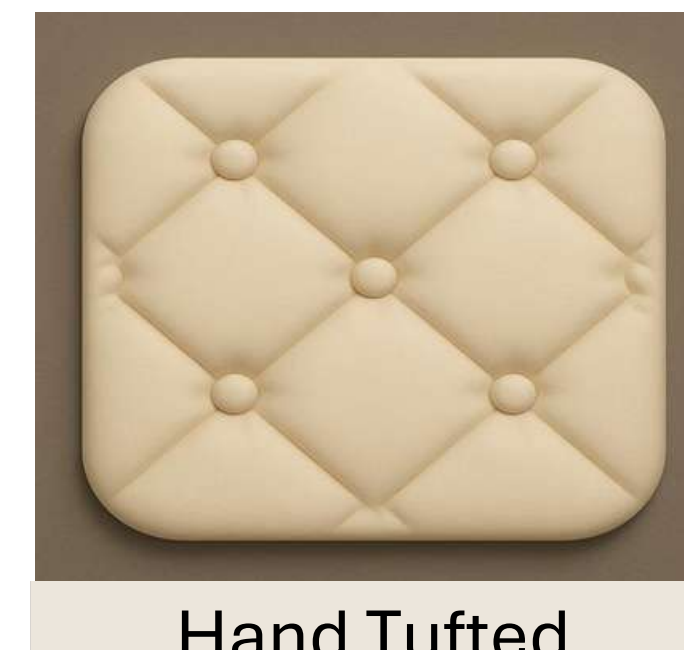

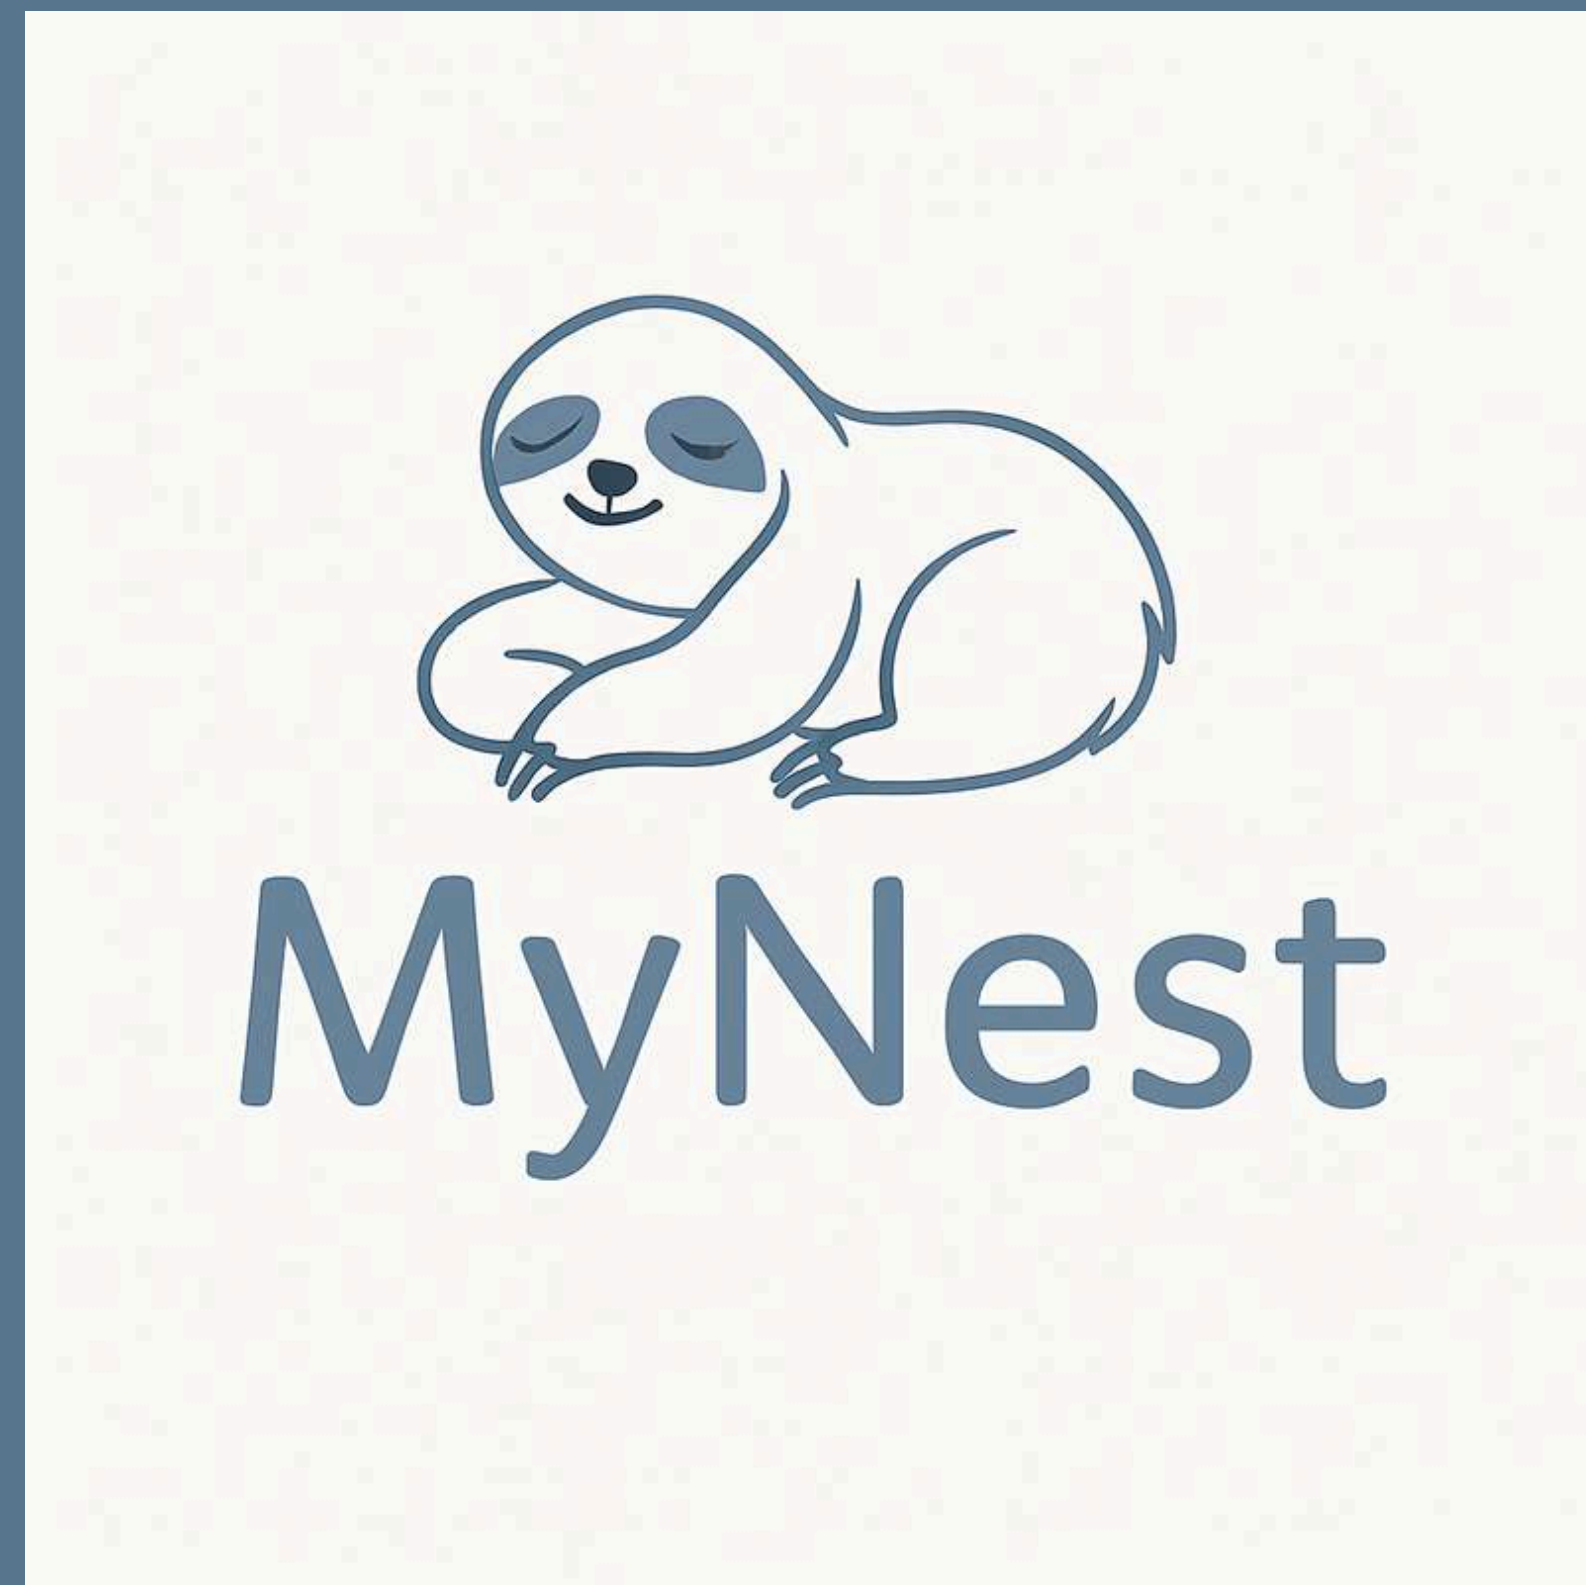

## Engineered for Exceptional Comfort and Durability

Designed to meet the demands of boutique and luxury hospitality, the Drift 1400 offers a perfect balance of premium comfort and commercial viability. Developed alongside its sister model, the Slumber 5000, this mattress delivers outstanding support, resilience, and long-term value for discerning hoteliers. At its core, a precision-engineered pocket spring system provides responsive, individualised support across the entire sleep surface. This is enhanced by our robust Edge master perimeter support, which integrates high-tensile steel wire along all sides to maintain structure and ensure edge-to-edge stability. Generous layers of high-quality upholstery fillings enhance pressure relief and overall comfort, while the surface is finished

in a luxurious 100% viscose fabric—chosen for its soft handle, superior breathability, and effective moisture management. The mattress is traditionally hand tufted to secure the internal fillings and maintain structural integrity over time. Fluted side panels are equipped with flag stitched handles to assist with rotation, and air vents are strategically positioned to encourage airflow, helping maintain a fresh and hygienic sleeping environment

# Hotel Contract 1000

Exceptional pocket spring comfort, unmatched affordability.  
Ideal for hotels, holiday parks, AirBnB & similar accomadation.

**Hotel Contract 1000**

# HOTEL CONTRACT 1000

## Exceptional Durability. Tailored Comfort.

The Hotel Contract 1000 is the latest addition to the MyNest Beds Contract Collection – expertly engineered to meet the demands of the hospitality sector. At its core is a robust 1000-count pocket spring unit, fully framed for enhanced structure and long-term support. For added durability, optional Edge master side and end supports can be included to further reinforce the spring system. Layered with comfort in mind, the mattress features multiple upholstery fillings including a dense, heavyweight polyester pad made from recycled rPET fibres, and a breathable blended cotton layer – delivering both resilience and comfort in equal measure. The mattress is finished in a traditional, all-over 100% striped cotton ticking, with hand-tufted panels that ensure consistent support across the surface. The pre-built borders are padded and fluted stitched for both structure and style, and flag-stitched handles make rotating and turning the mattress effortless. This model is compatible with a wide range of contract-ready divan bases – from our reinforced deep platform base to fixed-leg designs ideal for student accommodation or care environments. Options also include suitcase storage bases, drawer bases, and contemporary screw-in leg bases to suit any interior.

# Aqualux Ortho

Durable / Supportive / Breathable / Waterproof Cover

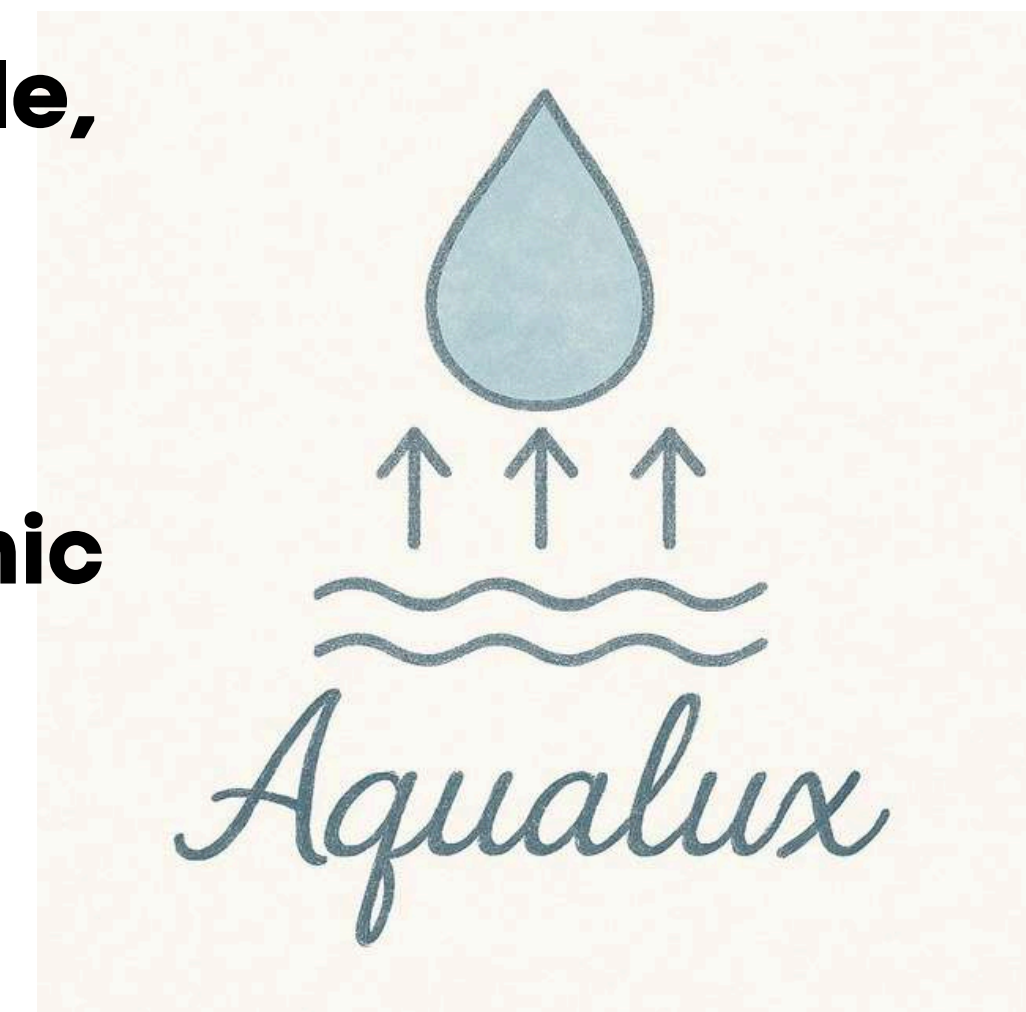

# Aqualux

**Durable | Supportive | Breathable Waterproof Cover**

The Aqualux features a **13.5g (2.12mm) open coil spring unit** with **full rod edge support** for long-lasting stability. An **insulator pad** helps reduce spring feel, while a layer of **heavyweight blended cotton upholstery** enhances comfort. This model is finished in a **breathable, waterproof fabric** commonly known as **Nautilus**. Its unique construction features a breathable surface with a **hidden waterproof barrier** underneath – offering comfort without the discomfort of plastic-like materials. The fabric is also **hypoallergenic** and **stain-resistant**, making it ideal for high-traffic environments such as **universities, colleges, private schools, and care homes**.

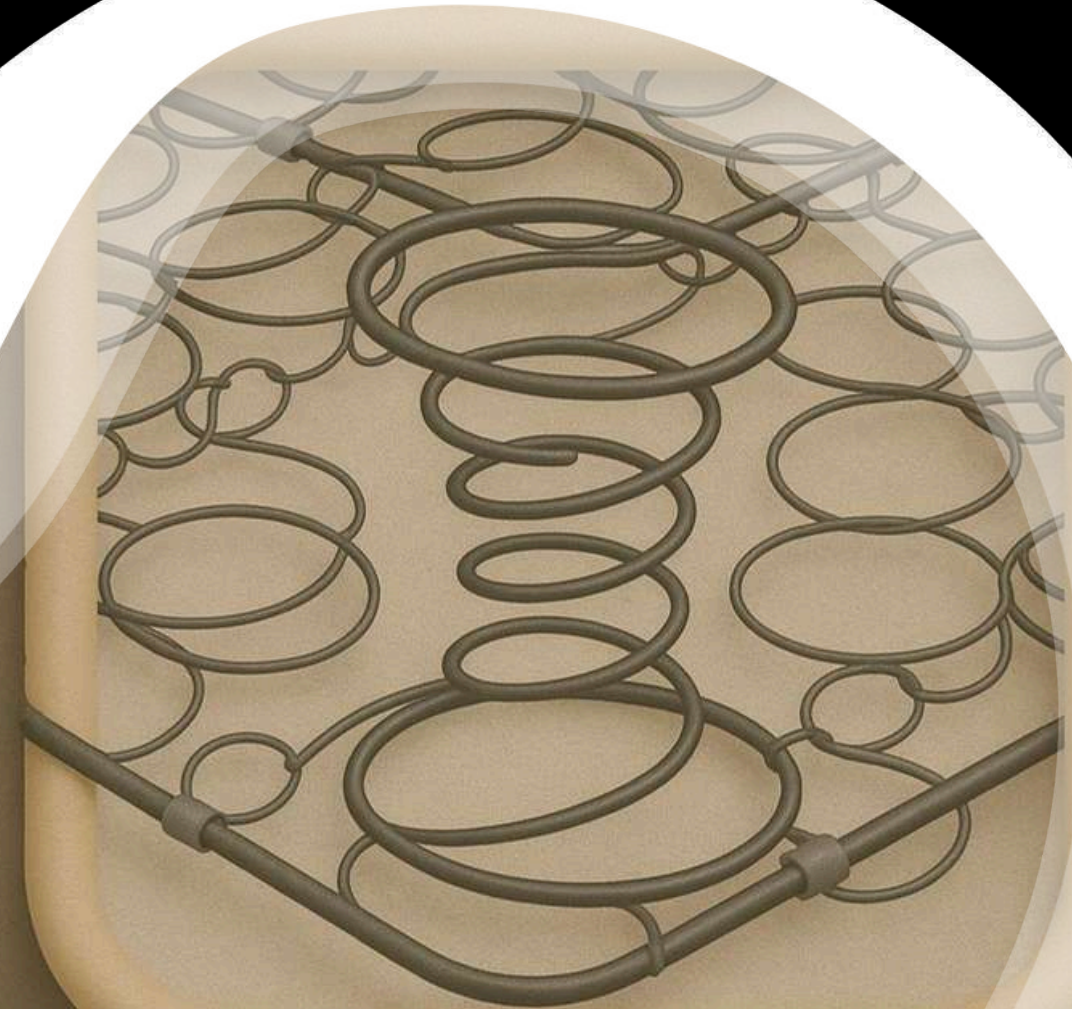

- ◆ Please note: Due to the sewn tape edge, this mattress is not completely waterproof. For severe incontinence, we recommend using a fully enclosing waterproof mattress protector.

**BLENDED  
COTTON**

•Aqualux Ortho •Extra Firm Support |

Breathable

Waterproof Cover

•A firmer alternative to the Aqualux, the Aqualux Ortho uses our 12.5g (2.45mm) extra firm open coil spring unit with full rod edge support. It shares the same breathable, waterproof Nautilus fabric cover and upholstery layers, offering both support and protection in demanding environments.

# Did you know...our Aqualux fabric keeps your mattress fresh, dry, and whisper-quiet?

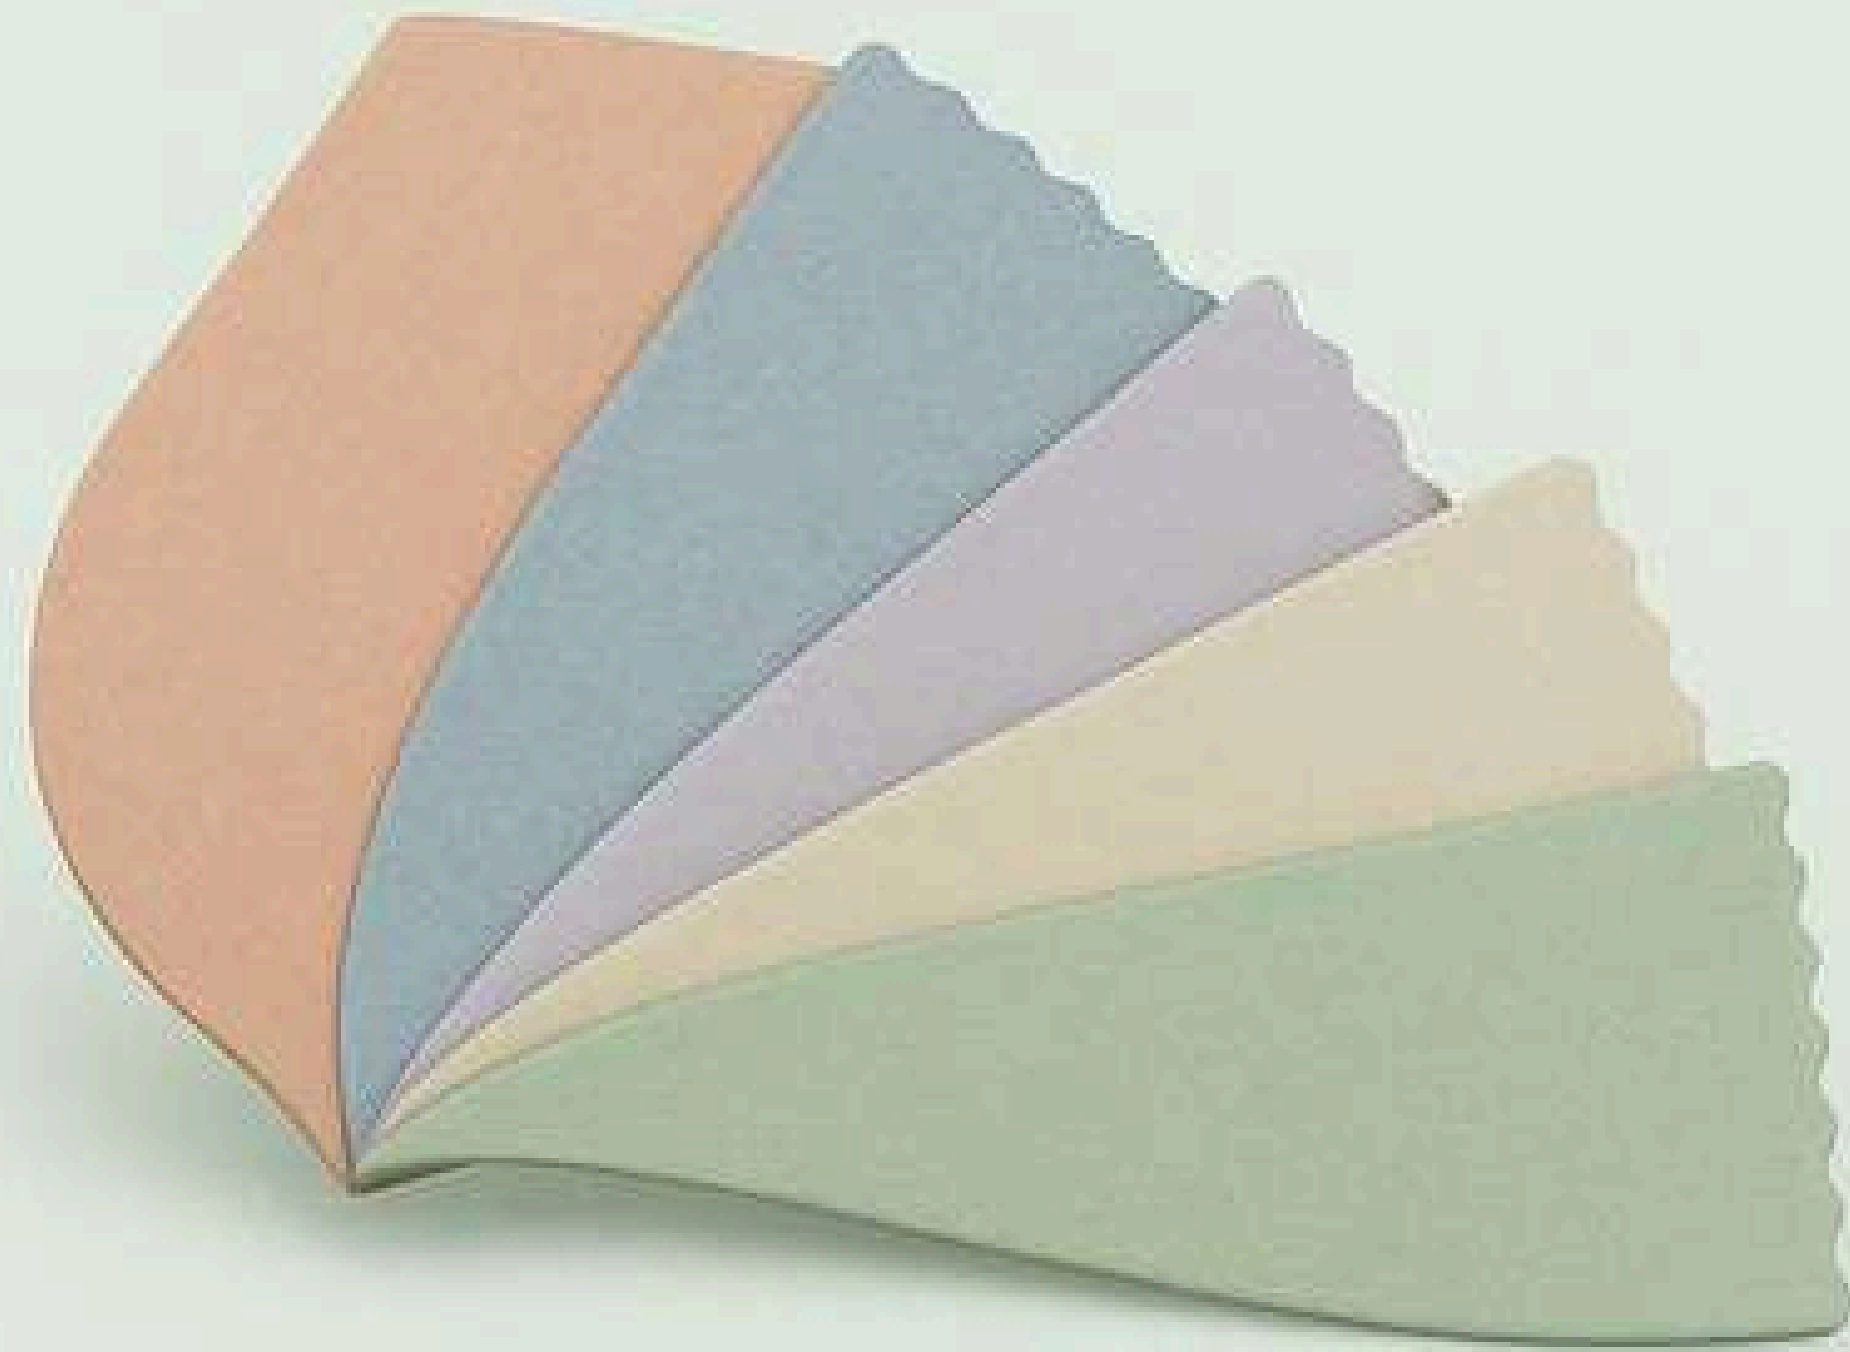

Used across selected Moonraker models, Aqualux is a cutting-edge fabric that combines waterproof protection with breathable comfort, all while maintaining a soft and silent finish.

## Why choose Aqualux?

- ✓ **Waterproof Barrier**  
Protects against spills: moisture, and accidents – perfect for guest beds, healthcare environments, and family homes.
- ✓ **Breathable Comfort**  
Allows body moisture to escape, helping regulate temperature and reduce humidity for a cooler, drier sleep.
- ✓ **Soft, Silent Surface**  
Unlike traditional waterproof covers, Aqualux is quiet and flexible, ensuring an uninterrupted night's sleep.
- ✓ **Hygienic & Hypoallergenic**  
Naturally resistant to bacteria, fungi, and dust mites, making it ideal for sensitive sleepers.
- ✓ **Durable & Easy to Clean**  
Built to last and simple to maintain — wipe clean or wash with ease.

**Aqualux: Smart comfort, sealed with care.**
